

ARSC 198

A&S FIRST-YEAR SEMINAR

3 CREDIT HOURS | FULL TERM

The College of Arts & Sciences is the *largest* college at UNM, housing 24+ departments & schools, & offering 70+ undergraduate programs/majors that span across the Humanities, Hard Sciences, & Social & Behavioral Sciences.

This course is designed as a first-year transition course specifically for incoming students in the College of A&S to help build community and awareness about resources that are available for you!

It is co-taught by a unique combination of Academic Advisors & graduate instructors from the college. All students will meet together on Monday mornings 9:00-9:50AM to hear from influential guest speakers from across the college & campus resources! Then, students will meet in smaller groups at 2 other points throughout the week to further explore topics like: learning how to navigate the university experience, developing study skills & strategies, exploring individual strengths, goals, identity, & holistic health as a college student, & learning how to approach future opportunities in undergraduate research.
